Our books have the potential to change people’s lives. As the largest publisher in the UK we have a unique opportunity to be a force for good in society. Creativity matters to society. Creative people invent, imagine and solve problems, big and small. Creativity has the power to change the world.

Now, more than ever, is the time to be creative. With the rise of Artificial Intelligence, creativity will become increasingly important as the defining human talent. It sparks original thinking, and is the one thing that machines won’t be able to do.

We don’t all have an equal opportunity to meet our creative potential. This is called the creativity gap. The creativity gap exists because of inequality in the UK. Our mission is to help close this gap.

We will help to close the creativity gap through:

**READING:** Helping every child in the UK to read well by the age of 11

**COMMUNITY:** Supporting communities on our doorstep and beyond

**DIVERSITY:** Championing diverse voices in our employees, authors and books

**SUSTAINABILITY:** Sourcing sustainable raw materials and reducing our environmental impact
At Puffin we believe that stories can inspire a child to feel that they can be, and do, anything. However, not every child in the UK has access to books and stories. Libraries are suffering from a chronic lack of investment. 53% of teachers say they don't have a library in their school.

We created Puffin World of Stories in partnership with our friends at the UK’s leading literacy charity, the National Literacy Trust in 2018.

Puffin World of Stories aims to address two key challenges - the lack of trained school librarians, and school budget constraints which often mean buying new books is just not an option.

Research shows that reading for pleasure improves children’s ability to read, write and progress at school, as well as having a positive impact on their mental well-being.

We piloted the programme with 58 primary schools, supporting them to transform their libraries and reading spaces into hubs of creativity and imagination. We’re excited to expand Puffin World of Stories to 80 more schools from September 2019.

EACH PARTICIPATING SCHOOL RECEIVES FOR FREE

- 300 brand new books from Puffin, from much-loved classics to debut authors
- Bespoke training for teachers from the National Literacy Trust
- Audiobook downloads, introducing schools to the power of audiobooks to reach children who struggle to read
- Colourful resources to bring their reading space to life including posters, bookmarks, and bunting

VENTURES

For many years, these stories and characters lived mainly in books, but nowadays they're providing the magic and wonder for all kinds of media, products and experiences that tell the complete story.

Penguin Ventures brings together our Licensing, Retail, Theatrical, Exhibitions, Digital, Film, Television, Experiential and Partnership strategies to find new ways to tell the world's favourite stories beyond the book. We are guardians for the character brands we own or represent and these include The World of Beatrix Potter, including the classic tales, the Peter Rabbit TV animation series and the Peter Rabbit movie franchise in partnership with Sony. Raymond Briggs' The Snowman and the newly animated feature, The Snowman and The Snowdog, The Flower Fairies, Ladybird Vintage and Eric Hill's Spot.
CASE STUDIES

Here are the ideas and strategies behind some of our most successful partnerships. Spanning snow suits to The Royal Mint, we’ve worked with some of the most respected and recognised brands. We think outside the box and can rise to the occasion of finding the right product for your customer and market.
ALICE IN WONDERLAND

To mark the 150th anniversary of Alice’s Adventures in Wonderland, we worked with Vivienne Westwood on this special edition of her favourite children’s story. She personally introduced and illustrated the book, creating a unique front cover and end papers, sold in Vivienne Westwood stores and available at select bookshops.
In celebration of the anniversary of Peter Rabbit, we created a bespoke, custom designed edition to be sold exclusively in National Trust properties.

One of their best-selling lines, the classic Tale of Peter Rabbit was re-imagined with a beautifully designed jacket, as the perfect gift for Beatrix Potter fans and collectors alike.
In partnership with Lloyds Bank, we produced A Crocodile for Billy – a bespoke children’s story book introducing the concept of saving money with the help of unique characters, created especially for Lloyds.

Including a fold-out saving chart, the book was gifted to customers when a new savings account was opened with the bank. The book was supported by an online educational site featuring characters from the book, as well as an animated e-version of the tale.

The campaign also involved the launch of the Ladybird ‘Starting School’ podcast in collaboration with Clarks.

Dinoski are a skiwear brand who thought that kid’s ski suits & winter gear was boring, making it difficult for families to spot their little ones on the slopes. As a result, they have created a line of exciting, character themed suits that kids can’t wait to wear.

To bring their ski-suits to life, we created an adventure storybook which is included as a gift with each order to ensure kids love their suit on and off the slopes.

The book takes the children on a ski adventure, selecting their outfit and mode of transport up the slopes, with stickers, press out and plays and even a checklist for them to use when they go on their own skiing trip.
